## STUDY DUNEDIN UPDATE

Department: Enterprise Dunedin

---

### EXECUTIVE SUMMARY

- 1 This report is to update the Economic Development Committee (EDC) on the activity of Study Dunedin and the international education sector in Dunedin.
- 2 International education was severely impacted by border closures introduced in the public health response to the Covid-19 pandemic. Dunedin education providers are positive about the rate of recovery since borders have re-opened and most have ambition to achieve more.
- 3 Dunedin’s reputation and visibility, institution’s staff capacity and business relationships are largely favourable for ongoing recovery and eventual growth of the sector.
- 4 Homestay accommodation availability has somewhat recovered to meet demand; however, it is an ongoing constraint for some institutions.
- 5 From 2026, more demanding achievement standards for English Language Learners in the National Certificate of Education Achievement (NCEA) system are seen as a potential risk to the sector.

### RECOMMENDATIONS

That the Committee:

- a) **Notes** the Study Dunedin Update – August 2024

### BACKGROUND

- 6 Enterprise Dunedin provides a coordination and facilitation role for the international education sector. This support extends beyond the Economic Development Study Advisor to include Project China and Destination Marketing teams.
- 7 Staff work with the Study Dunedin Advisory Group (SDAG) partners through a shared work plan, called the Future Focus Plan. SDAG includes representatives from the education institutions and student associations. The independent Chair was re-appointed for another term at the last meeting of SDAG.
- 8 The Future Focus Plan was developed with the sector in 2022. The plan identifies shared priorities for the recovery of international education including provision of homestay, provision of English language tuition, relationships with sector partners such as agents, and destination marketing.
- 9 The plan’s focus is largely economic but also includes activity for social, environmental, and cultural outcomes. Study Dunedin supports civic and mana whenua welcome events, sports

days, cultural events, and social gatherings often linking visiting students to resident communities and secondary and tertiary international students together.

- 10 The international education sector in Dunedin is typified by a cooperative approach across education institutions and between secondary and tertiary sectors. This approach is recognised by national bodies such as Schools International Education Business Association (SIEBA) and Education New Zealand (ENZ). Further opportunities to work strategically and efficiently for shared benefit are being considered.
- 11 In 2019, Dunedin hosted approximately 5000 international students at secondary schools, Pathway and English Language Centre, and tertiary institutions annually. Border closures due to the Covid Pandemic halted travel for international education.
- 12 As of mid-2024 numbers of international students in Dunedin are around 2900 full time equivalent (FTE).
- 13 As numbers of international students have grown, education institutions have rebuilt staff capacity including dedicated International Directors and Homestay Coordinators.
- 14 International education still represents a significant economic benefit to Dunedin, beyond the development of research opportunities and social and cultural benefits. Treasury notes that the total contribution to Gross Domestic Product (GDP) per international student is \$52,936.00 in 2024. With 2900 FTE international students in the city, this represents a contribution to local GDP of around \$153M NZD.
- 15 Jason Cushen, Director, Te Whirika (International), University of Otago said, *'The University of Otago's Pae Tata 2030 Strategy has established the goal of 20% international student cohort of the total student population. While we have not yet returned to our 2019 international student numbers, our numbers continue to grow back and we have a comprehensive plan in place to rebuild our international numbers, and in turn reach our 20% goal by 2030.'*

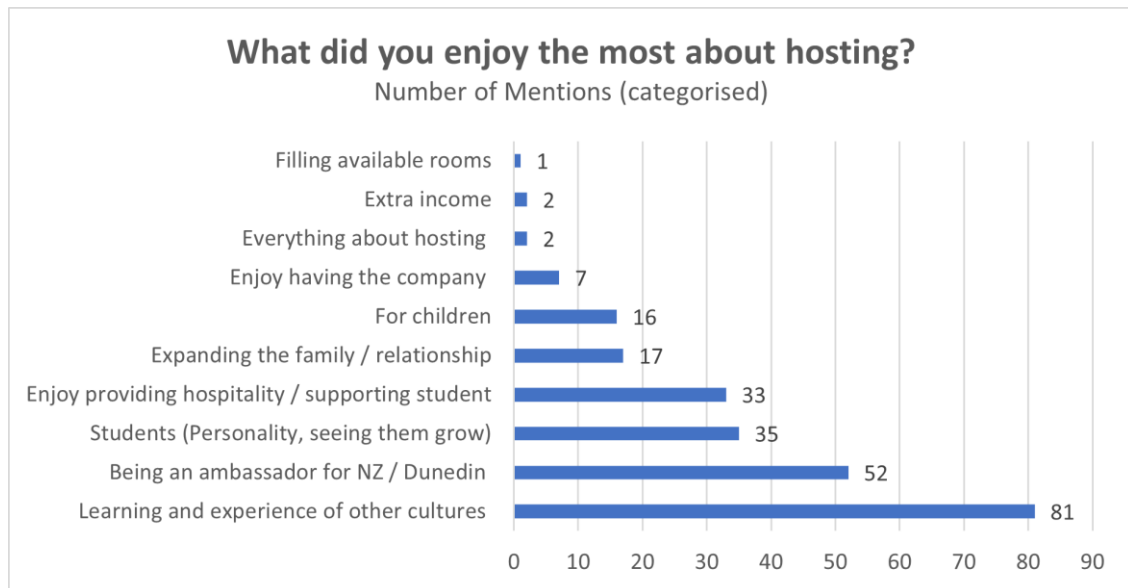

## **DISCUSSION**

### **Provision of Homestay**

- 16 Over the last 18 months, several schools and the Pathway and English Language Centre at University of Otago have been unable to source sufficient homestay accommodation and have turned away enrolments.
- 17 In early 2024, Enterprise Dunedin surveyed homestay families including those who no longer offer accommodation, to understand their motivation and perceptions of homestay. The research findings will inform ongoing campaign activity to support recruitment of homestay families across the city.
- 18 The research also identifies opportunity to improve coordination within and across education providers. Various models for provision of homestay recruitment, support and management have been considered. Some schools are now jointly employing staff and sharing contacts of homestay providers.

**Table 1. Dunedin Households Experience Hosting International Students**

- 19 Mike Waterworth, Assistant Principal, Director of International Students, Trinity College said, *'Our international department is growing but it is hard work and fickle. Good homestays remain a limiting factor.'*

**Provision of English for Speakers of Other Languages (ESOL)**

- 20 ESOL achievement standards will require a higher level of student capability from 2026. This is part of wider changes to NCEA being rolled out by the Ministry of Education.
- 21 Study Dunedin Advisory Group heard concerns about the ability of international students to achieve the co-requisite unit standards required for NCEA qualifications, and then progress to further levels of study. This creates reputational risk for international education providers in the eyes of agents and potential students and their families.
- 22 Enterprise Dunedin facilitated a workshop with Julie Luxton a national expert in ESOL, teaching staff and International Directors from Dunedin secondary schools to identify opportunities to improve outcomes for English Language Learners including migrant and refugee pupils.

**Industry Relationships**

- 23 Enterprise Dunedin works with ENZ to support international agent familiarisation trips to the city and wider region. ENZ support has included funding. Enterprise Dunedin also works with Dunedin based agents to support visits by their international business partners to the city.
- 24 Since January 2024, Enterprise Dunedin has supported five familiarisation trips, hosting 30 education agents from around the world, in the city. In this period, staff also presented to two on-line business events where they engaged with 65 agents from around the world.
- 25 Familiarisation trips typically showcase education providers, enable networking and presentations with international staff, and invitation to meet community representatives.
- 26 Enterprise Dunedin maintains relationships with engaged and productive agents via periodic updates and utilises feedback from these agents to develop collateral to promote the city.

- 27 Enterprise Dunedin has supported schools and tertiary institutions to rebuild direct relationships with their Chinese partners. In September a Dunedin education delegation will visit two friendship cities with the support of staff.
- 28 The University of Otago and Otago Polytechnic have noted lengthening times for Immigration New Zealand to process visa applications and increasing rates of ‘decline’ for study visas as a challenge. These institutions are working with their peers to advocate for improvement.
- 29 Wayne Angus, Director of International Students, Otago Boys’ High School said *‘Short-term study market, particularly Japan, is strong. Long-term market from China building nicely; slow, sustainable growth is fine. Long-term enrolments from other markets weak at present.’*

### **Destination Marketing**

- 30 Study Dunedin partners (including Otago Polytechnic, the University of Otago, and secondary schools) identified Japan, China, and Thailand as shared priority markets for Dunedin’s international education sector in 2023/24. These are reviewed annually and indicate preference for development of marketing and engagement activity.
- 31 In the last year staff have:
- provided cultural capability support for International Directors visiting China and Japan
  - published translated city fact sheets for the priority markets
  - published two case study video featuring international students that have moved from secondary to tertiary study and into employment in Dunedin
  - published a locations showreel of the city through the eyes of international students
  - published webinar presentations about Dunedin on ENZ’s website
  - published written interviews with students about their Dunedin experience
  - developed an Ambassador Programme for Japanese secondary students to encourage enrolment at Dunedin schools
  - designed a scholarship providing discounted tuition fee and VIP Dunedin experiences to support the Ambassador Programme
  - promoted the Dunedin Ambassador Programme in the Kibunsha Study Abroad Magazine, (20,000 copies are distributed through 3,000 schools across Japan)
  - refreshed the DunedinNZ website study pages.
- 32 Key messages about Dunedin include that it is a compact city with valued amenities, a highly educated community, and a young population. The city is close to nature and recreation opportunities and has a growing economy with diverse strengths for ongoing education and work opportunities.
- 33 Garry Chronican, Director, Te Huarahi (Pathway), University of Otago, said *‘Very active and effective International Marketing & Recruitment team. Slowly moving in the right direction but a long way to go to catch up on the swiftness and sophistications in other countries such as China. Study Dunedin are doing an amazing job. Congratulations and thanks.’*

### **OPTIONS**

- 34 As a report for noting there are no options.

**NEXT STEPS**

35 Enterprise Dunedin will continue to provide support to rebuild and grow the city’s international education sector.
