Minimum Rates

Separately Used or Inhabited Part of a Rating Unit

- f) **Adopts** the following definition of a separately used or inhabited part of a rating unit:

"A separately used or inhabited part of a rating unit includes any portion inhabited or used by the owner/a person other than the owner, and who has the right to use or inhabit that portion by virtue of a tenancy, lease, licence, or other agreement.

This definition includes separately used parts, whether or not actually occupied at any particular time, which are provided by the owner for rental (or other form of occupation) on an occasional or long term basis by someone other than the owner.

For the purpose of this definition, vacant land and vacant premises offered or intended for use or habitation by a person other than the owner and usually used as such are defined as 'used'.

For the avoidance of doubt, a rating unit that has a single use or occupation is treated as having one separately used or inhabited part."
